

ESLAM MAHMOUD

Flutter & React Native Developer | Mobile Applications Engineer

Cairo, Egypt | xdev.eslam@gmail.com | +20 1122299831 | linkedin.com/in/deveslam-mahmoud | github.com/DevEslam1

PROFESSIONAL SUMMARY

Cross-platform Mobile Developer with 1+ year of hands-on experience building scalable applications using Flutter, React Native, and Clean Architecture. Published production-ready apps on the App Store and Google Play (Maysur, Free Zone), with a strong focus on performance optimization, maintainability, and exceptional UI/UX. Leverages advanced AI-augmented development workflows (MCP servers, AI agents) to accelerate planning and deliver robust software architectures.

WORK EXPERIENCE

Mobile Development Intern

Nile University — Sponsored by Misr Bank, Mansoura, Egypt

Feb 2026 – Present

- Collaborating on cross-platform mobile development projects using **Flutter** and **React Native** structured with scalable, modern architecture patterns.
- Leveraging **AI-augmented development** tools (MCP servers, AI agents, Claude/Gemini) to accelerate feature planning by ~30% and improve code quality.
- Working alongside multidisciplinary teams to design and implement real-world banking and fintech application features.

Junior Flutter Developer

H Solution, Cairo, Egypt (Remote/Hybrid)

Nov 2025 – Present

- Developed and successfully launched 2 production-ready applications (**Maysur** and **Free Zone**) on the **App Store** and **Google Play**, bringing complete e-commerce and multi-vendor solutions to thousands of potential users.
- Architected robust codebases from scratch using **Clean Architecture** and the **BLoC pattern**, significantly improving code testability and future-proofing the apps for scale.
- Integrated **REST APIs** and real-time **Firebase** services (Auth, Firestore, Push Notifications), streamlining data synchronization and reducing overall latency.

Quality Control & Production Supervisor

Armed Forces Plastic Factory, Mansoura, Egypt

Oct 2022 – Oct 2024

- Managed a cross-functional team of 10+ technicians, maintaining a **95% safety compliance rate** and driving overall operational efficiency.
- Proactively administered technical maintenance on PLCs and CNC systems, reducing material waste by **15%** and minimizing system downtime by **10%**.

SKILLS

- Languages:** Dart, JavaScript, Swift, Kotlin, Python (Basics)
- Frameworks:** Flutter, React Native
- State Management & Architecture:** BLoC, Provider, Redux, Clean Architecture, MVVM, SOLID Principles
- Backend & Services:** Firebase (Auth, Firestore, Cloud Storage), RESTful APIs
- Tools & DevOps:** Git, GitHub, CI/CD pipelines (Basic), Figma
- AI Dev Tools:** AI-Augmented Development, Prompt Engineering, MCP Servers, Generative AI (Gemini, Claude, ChatGPT)

FEATURED PROJECTS

- **Maysur (E-Commerce Ecosystem) | [Google Play](#)**

Full-featured B2C/C2C e-commerce mobile application with advanced search, secure authentication, and payment workflows. Implemented completely in Flutter with Clean Architecture and BLoC to guarantee high performance and modularity.

- **Free Zone (Multi-vendor Marketplace) | [App Store](#) • [Google Play](#)**

A dynamic marketplace app facilitating seamless online shopping across multiple vendors. Engineered the front-end using Flutter and Provider for robust state management.

- **News App & Weather App Portfolio | [GitHub Source Codes](#)**

Developed a suite of portfolio apps (E-Commerce, News, Weather, Movies) showcasing proficiency in integrating complex 3rd-party REST APIs (Dio/HTTP), managing device hardware (Geolocator), and deploying modern, sleek UI/UX patterns with animations.

EDUCATION

B.Sc. in Mechatronics Engineering

Mansoura University, Mansoura, Egypt

June 2022

- **Technical Excellence:** Awarded **1st Place** in the Mansoura University Robotics Challenge, demonstrating early expertise in complex systems integration and logic programming.

CERTIFICATIONS

- [The Complete Flutter Development Bootcamp with Dart](#) — Udemy (Jan 2026)
- [Advanced Flutter UI and State Management](#) — Packt (Jan 2026)
- [Meta React Native Specialization: Intro to Mobile Development](#) — Coursera (Mar 2026)
- [Meta React Native Specialization: Programming with JavaScript](#) — Coursera (Mar 2026)
- **Succeed in the Age of AI** — Upcoming (Feb 2026) — *Focus on AI tools for coding assistance and automated workflows.*
