

ESLAM MAHMOUD

Mobile Applications Engineer (Flutter & React Native)

Mansoura, Egypt | xdev.eslam@gmail.com | +20 1122299831 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Results-driven Mobile Developer with hands-on experience building scalable, cross-platform applications using **Flutter** and **React Native**. Proven track record of publishing production-ready apps on the App Store and Google Play (Maysur, Free Zone). Specialized in implementing **Clean Architecture**, reactive state management (BLoC, Redux), and premium UI/UX design. Highly proficient in leveraging AI-augmented development workflows (MCP servers, AI agents) to accelerate development cycles and deliver robust software solutions.

PROFESSIONAL EXPERIENCE

Mobile Development Intern

Nile University (Sponsored by Banque Misr) — Cairo, Egypt

Feb 2026 – Present

- Collaborating on cross-platform mobile development projects using React Native and Flutter, structured with scalable, modern architecture patterns.
- Leveraging AI-augmented development tools (MCP servers, Claude, Gemini) to accelerate feature planning by ~30% and improve overall code quality.
- Working alongside multidisciplinary teams to design and implement practical, state-driven applications.

Junior Flutter Developer

H Solution — Cairo, Egypt (Remote/Hybrid)

Nov 2025 – Present

- Developed and launched 2 production-ready applications (**Maysur** and **Free Zone**) on the App Store and Google Play, serving complete e-commerce and multi-vendor solutions.
- Architected robust codebases from scratch using **Clean Architecture** and **BLoC/Provider** patterns, significantly improving code testability and scalability.
- Integrated REST APIs and real-time Firebase services (Auth, Firestore, Cloud Messaging), streamlining data synchronization and reducing overall latency.

Military Service: Completed (Reserve Officer)

Quality Control & Production Supervisor (Army Officer)

Armed Forces Plastic Factory — Cairo, Egypt

Oct 2022 – Oct 2024

- Served as a **Reserve Officer** in the Egyptian Armed Forces, overseeing production lines and quality standards.
- Managed a cross-functional team of 10+ technicians, driving operational efficiency and maintaining a 95% safety compliance rate.
- Administered technical maintenance on PLCs and CNC systems, reducing material waste by 15% and minimizing system downtime by 10%.

FEATURED PROJECTS (PORTFOLIO)

NovaStore (Premium E-Commerce App) | Flutter, Dart, Firebase, BLoC

- Engineered a luxury e-commerce application from scratch using **Clean Architecture** principles, with strict separation of Presentation, Domain, and Data layers.
- Implemented a bespoke design system with Glassmorphism and Material 3 theming.
- Integrated full Firebase backend (Auth, Firestore, FCM) with multi-step checkout, real-time search, and order tracking.

BeatFlow (Advanced Music Player) | React Native, Expo, Context API

- Built a feature-rich music player combining Deezer API streaming with local device audio scanning.
- Implemented sustained **background audio playback** and native system media controls (lock screen integration) on iOS and Android.
- Engineered network resilience with automatic polling, connectivity monitoring, and offline mode for downloaded tracks.

DevSync (Team Collaboration Platform) | Flutter, Firebase, BLoC, Clean Architecture

- Developed a scalable workspace app for engineering teams featuring interactive dashboards (fl_chart) and Agile Kanban boards with drag-and-drop.
- Built unified real-time team chat utilizing Firestore streams for instant message delivery and persistence.

SKILLS

- **Core Mobile:** Flutter, React Native, Dart, JavaScript, TypeScript
- **Architecture & State Management:** Clean Architecture, SOLID Principles, BLoC, Provider, Redux, MVVM
- **Backend & APIs:** Firebase (Auth, Firestore, Cloud Storage), RESTful APIs
- **AI & Tooling:** AI-Augmented Development, Prompt Engineering, MCP Servers (Gemini, Claude, ChatGPT), Git, GitHub, Figma

EDUCATION

B.Sc. in Mechatronics Engineering

Mansoura University — Mansoura, Egypt

Graduated: June 2022

Highlight: 1st Place in the Mansoura University Robotics Challenge, demonstrating early expertise in complex systems integration and logic programming.

CERTIFICATIONS

- **Meta React Native Specialization** – Coursera (Mar 2026)
 - Introduction to Mobile Development
 - Programming with JavaScript
 - React Native (In Progress)
- Advanced Flutter UI and State Management – Packt (Jan 2026)
- The Complete Flutter Development Bootcamp with Dart – Udemy (Jan 2026)
- Getting Started with Flutter & Dart – Coursera (Jan 2026)
